

Kwik Dial

- 4,6,9,12 stations
- 3 independent programs
- 3 starts per program
- Water Budget: from 0% to 200%

Kwik Dial was designed for watering medium-sized gardens that require more careful planning. It is the entry-level control unit with mechanical Dial in the Irritrol range, which makes the simple programming similar to other Irritrol professional controllers.

Features

- Irrigation duration from 1 minute to 240 minutes (4 hours), with 1 minute increases per station
- Flexible irrigation programming:
 - Daily irrigation (up to 9 starts per day)
 - Weekly irrigation
 - Irrigation on even and odd days (excluding the 31st day of the month and the 29th day of a leap year)
 - Irrigation at 1 to 30 day intervals
 - Day exclusion option: possibility to choose the day or specific days when not to irrigate
- Stacking Program
- Rain interruption function up to maximum 7 days
- Automatic, semi-automatic and manual start
- Permanent memory
- The "Super Cap" option provides back up power for maintaining the current time and date in the event of a power cut for more than 24 hours (without needing batteries)
- Test program for all the stations
- Automatic program for electronic protection*
- Rain sensor activation through switch
- Container with cover and lock
- Multilingual menu
- EC approval

* Identifies the valve in short circuit and removes it from the program

Additional Features

Protection against current surges (both on internal and external lines) for damage caused by lightning and voltage surges

Specifications

Input power:

- 220 VAC, 50Hz (0,5 A)

Output power:

- Max per station: 24 VAC (0,4 A)

- Max total (including pump control): 24 VAC (0,8 A)

Operating temperature: from -10° to 60° C

Options

Rain sensor connection

Climate Logic

CMR KIT

KWIK Start Kit

Dimensions

Height: 23 cm

Width: 15,3 cm

Depth: 10,2 cm
